Letter of Recommendation

Mr. Bartłomiej Kisielewski from the company HORIZONE STUDIO worked in the OPM project management team from 20th January to 15th July 2011. He helped to co-ordinate the legal and start-up process during implementation of the new Rolls-Royce building in Gdynia, Poland.

The area of the new Rolls-Royce service facility in Gdynia measures about 2000 m². The budget amounted to €5m net. Otte Projektmanagement GmbH (OPM) from Berlin supervised the entire implementation process.

Mr. Kisielewski provided a good understanding of work in an international and interdisciplinary team, and a broad knowledge of the local context, especially with Polish authorities. As a result acceptance and the start-up process were successfully accomplished.

Therefore without hesitation we can recommend Mr. Kisielewski from HORIZONE STUDIO to every potential client and we are looking forward to possible future co-operation on other international projects.

We remain at your disposal for any further information.

Kind regards,

Martin Otte
